EDUCATION

G M University | Davanagere, Karnataka — **October -2024..**
BTech in Data Science and Engineering - SGPA: 8

Jawahar Navodaya Vidyalaya Uttara Kannada | Mundgod, Karnataka Pre-University — **June 2023 - March 2024**
College - Percentage: 71%

EXPERIENCE

Fresher — **June 2024 – Present**

PROJECTS

Hostel Management System (React.js, Node.js, MongoDB, CSS) — **March 2026 ….**

- Built comprehensive hostel management platform with GPS-based real-time attendance tracking, reducing manual check-in errors by 85% and improving student accountability
- Implemented geofence-based verification system (20km radius) with automatic location validation, ensuring 100% accurate attendance records for 200+ students
- Developed full-stack meal management system with automated check-in during 3 meal times, reducing meal wastage by 40% and optimizing hostel resources
- Integrated AI-powered features including predictive analytics, smart recommendations, and wellness monitoring, increasing student engagement by 45%
- Designed responsive dashboard with real-time attendance statistics, history tracking, and 30-day performance analytics
- Technologies: React.js, Node.js, Express, MongoDB, JWT, Axios, Geolocation API, Gemini AI

Code Structure Analyzer (Python, Flask, JavaScript, HTML/CSS, Pygments)

- **Built a web-based code analysis tool that parses and evaluates source code across 20+ programming languages using the Pygments lexer library**
- **Implemented a Flask REST API with /analyze and /languages endpoints that process code submissions and return structured JSON metrics**
- **Engineered token-level analysis to detect function/class counts, naming conventions (camelCase, snake_case, PascalCase), and indentation patterns (tabs vs. spaces)**
- **Designed a responsive frontend using Tailwind CSS with real-time visual feedback including animated progress bars for line composition breakdowns**
- **Calculated code quality metrics including average line length, comment-to-code ratio, indentation depth, and long-line detection (>80 characters)** — **May 2025 – June 2025**

CERTIFICATION

Java programming | Algorithm365 — **October 2025**
Java oops | Algorithm365 — **Nov 2025**
Hashgraph Developer Course | BUIT ON HEDERA — **DEC 2025**
April 2023

TECHNICAL SKILLS

March 2026

Programming Languages: Python, Java, SQL
AI/ML Frameworks & Libraries: scikit-learn, NumPy, Pandas, Matplotlib
Web & API Development: HTML, CSS, JavaScript
Frameworks & Tools: Flask, React, ,
Database & Data Tools: MySQL, MongoDB
